Dear Dealers and Retailers - - Happy New Year!!

We are excited to jumpstart our newsletters again in 2022 and will do our best to keep you informed of the many updates and changes with our brands and products. After taking a Covid induced break last year, helping so many who were just trying to get product shipped, we would hope to make these updates as informative as possible to make the best use of your time.

PRICE INCREASE

Moving forward Inspire Fitness will update and send out new price lists on a bi-annual basis. January 1st and July 1st are the dates new price lists will become effective (If needed). If a customer places an order with Inspire Fitness before new pricing becomes effective, we will honor the pricing on that PO if Inspire can ship the order as soon as the product becomes available after the price increase. If the customer asks for a delay on the order, the order will become subject to a price change.

This allows you to plan your orders Jan-Dec and know when a possible price increase will affect your costs. Please plan your orders now through June to allow the factory to schedule production appropriately.

[Subscribe](#)[Past Issues](#)[Translate ▼](#)NEW PRODUCT | [SF3 Functional Trainer](#)

The SF3, introduced at IHRSA in Dallas, TX. Will soon be coming down the production line. The new functional trainer is a streamlined version of the bestselling FT2 and comes with some new innovations. Inspire designed a new Smith Bar selector mechanism that is so much better than the FT2 that Inspire will soon integrate that design into the FT2 as well. The SF3 also has shielded top pulleys, comes with the FLB folding bench, and provides a storage rack inside the cage to store the bench when not in use. The dual weight stacks also match the FT2 along with the weight multiplier to make sure your heavy users have enough weight on the bench press. We believe this will be a step-down product and capture those customers that will not buy the FT2. There is also plenty of room for the FT1 below the SF3 and allow customers who want the Smith Bar to step-up to the SF3 for a reasonable upcharge. In all, this will be a fantastic machine and will make you a lot of money.

Dealer Cost FOB China: \$1,178.00.
